IN the preparation of this Atlas, the geographical features of the maps, except the spelling of the names, have been entrusted to The Matthews-Northrup Works of Buffalo, N. Y., by whom the work has been executed. The spellings of the names have been determined after consulting the following authorities :

The Decisions of the United States Geographic Board.

The United States Government's Gazetteer of the Philippine Islands, 1902.

The Map of Europe published by Stanford's Geographical Establishment in London, 1906.

The Indian Postal Guide for January, 1909.

The Chinese Government List of Imperial Post-offices, published in 1906.

The Atlas of the Chinese Empire, specially prepared by Mr. Edward Stanford for the China Inland Mission, 1908.

Homer B. Hulbert, F. R. G. S., a member of the Korea Branch of the Royal Asiatic Society.

MAP INDEX

THE names of countries and of conferences of the Methodist Episcopal Church are shown in capital letters, followed by the numbers of the maps in which each appears. The names of cities and towns are shown in capitals and small letters and are followed by the numbers of the maps on which each appears, and its latitude and longitude (East or West of Greenwich). The latitude and longitude are given not only to provide such information, but also to aid in quickly finding places on the maps. All cities and towns mentioned in this index are regular conference appointments, but not all such conference appointments appear either in the index or on the maps, some having been omitted in the interest of map legibility. Where spellings used on the maps differ greatly from those long in use, the old spellings are given in this index with a reference in each case to the new spelling.
